DETAILED ACTION

Claim Objections

1. Claim 13 is objected to because of the following informalities: in claim 13, line 4, "greeting" should be --grating--. Appropriate correction is required.

Claim Rejections - 35 USC § 103

2. The following is a quotation of 35 U.S.C. 103(a) which forms the basis for all obviousness rejections set forth in this Office action:

(a) A patent may not be obtained though the invention is not identically disclosed or described as set forth in section 102 of this title, if the differences between the subject matter sought to be patented and the prior art are such that the subject matter as a whole would have been obvious at the time the invention was made to a person having ordinary skill in the art to which said subject matter pertains. Patentability shall not be negated by the manner in which the invention was made.

3. Claims 9-14 are rejected under 35 U.S.C. 103(a) as being unpatentable over Menelaou 6,412,717.

Menelaou discloses a cheese grater as seen in Figure 1, which comprises a grating means (12), a container (1) having a mouth (11) rotatably coupled to the grating means, the container having a wall (2) defining a cavity for receiving cheese (X) therein, the container having a pair of opposing vanes extending inwardly from the wall toward a center of the cavity as seen in Figure 3, the vanes and the wall defining two partial cavities for receiving the cheese as seen in Figure 1, whereby the grating means moves with respect to the cheese when the grating means is rotated about the mouth of the container (col. 2, ll. 27-67 onto col. 3, ll. 1-18), a threaded stem (17), a pushing means (11). Menelaou lacks that two momolithic pieces of the cheese are being received in the cavities.

It would have been obvious to one having ordinary skill in the art at the time the invention was made to duplicate Menelaou's cheese, since it has been held that mere duplication of the essential working parts of a device involves only routine skill in the art. As per MPEP 2144.04

Allowable Subject Matter

4. Claims 1-5 are allowed.

Response to Arguments

5. Applicant's arguments filed 10/27/2005 have been fully considered but are moot in view of the new ground(s) of rejection.

Conclusion

6. The prior art made of record and not relied upon is considered pertinent to applicant's disclosure. Wallays et al. 6,116,469 disclose other type of cheese grater.

7. Applicant's amendment necessitated the new ground(s) of rejection presented in this Office action. Accordingly, **THIS ACTION IS MADE FINAL**. See MPEP § 706.07(a). Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire **THREE MONTHS** from the mailing date of this action. In the event a first reply is filed within **TWO MONTHS** of the mailing date of this final action and the advisory action is not mailed until after the end of the **THREE-MONTH** shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of

the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the date of this final action.
